

Job Title: Quality Assurance Field Evaluator

Department: Quality Assurance

Location: Salinas, CA

Job Description: Mantis Ag Technology, has an internship leading to a full-time position for Quality Assurance & Data Collection. Mantis Ag Technology pairs the latest in farm equipment design with innovative vision recognition software to maximize the efficiency of our grower/clients. Mantis develops and implements industry leading, AI guided, automated precision-spraying and cultivation technologies.

Quality Assurance is responsible for monitoring our automated lettuce thinning and precision spraying performance in the field. This includes gathering machine performance information in the field, keeping track of completed jobs, and reporting data and information about job performance.

Essential Duties and Responsibilities include the following:

- Monitoring field conditions, machine performance, and job completions
- Executing post-spray field evaluations of crops
- Coordinate own schedule to efficiently complete daily and weekly tasks
- Speak with Pest Control Advisors (PCA), supervisors, and foremen on field conditions and machine performance
- Execute field pre-assessments
- Input data and communicate observations through weekly reports
- Other duties and responsibilities which may be assigned

Other Qualifications and Skills:

- Bilingual English/Spanish is a plus but not required
- 1-2 years experience in the agriculture field or associated course work
- Display excellent written communication skills
- Demonstrate initiative, reliability, and strong work ethic
- Self-starter who can work under minimum supervision
- Must possess a current valid driver's license and maintain an acceptable driving record
- Able to use Microsoft Office programs (Word, Excel, Power Point, etc.)

Competitive and comprehensive benefits package offered. Please apply with your cover letter and resume to jwiegand@mantisag-tech.com.
